Mr. R. L. Furniss, Chief
Division of Forest Insect Research
809 N. E. Sixth Avenue,
P. O. Box 4059,
Portland 8, Oregon

Dear Mr. Furniss:

We are aware that the Stephanopachys pacificus Casey infestation in the school at Veradale, Wash., has been brought to your attention.

We have been attempting to obtain some detailed information on the life-cycle, habits, etc. of this insect, but have been unsuccessful.

Can you direct us to any source where we would be able to find the desired information?

Any assistance would be appreciated.

Yours truly,

WESTERN INSECTICIDE CO.

Dwight Slawson
